ABOUT ME

I am a student specializing in System Development, with hands-on experience in web and system development, database design, and freelance projects. I have built e-commerce platforms, POS systems, and full-scale academic systems, applying both front-end and back-end development skills. I am passionate about team collaboration, problem-solving, and designing practical, user-focused solutions that combine technical functionality with usability. I am continuously developing my skills in cloud technologies, modern web frameworks, and game development, aiming to contribute effectively to real-world projects and innovative system solutions.

EDUCATION

2025-2026	Specialization in System Development
PHINMA Cagayan de Oro College	Currently specializing in system development with hands-on exposure to cloud services, Unity game development, and modern web technologies including vanilla JavaScript and the Next.js framework.
